

Masterworks Software Class

We will experience the advanced innovative digitizing opportunities through the Master Works embroidery program. Week one will be an overview of the workspace, setting up the workspace and the use of some basic tools. Week two we will explore some of the other convenient and unique tools available through Masterworks.

Supply List

1. Laptop computer with program loaded
2. Battery backup cable and external mouse
3. Pen and paper for note taking
4. Specific questions about projects that you have attempted
