Mel's Sewing Service - Specialty Class
Project: A Design, A Computer, A Pillow & You

Instructor: Carol Hatton

This class is designed to take you and your software to the next level. Learn how to take an existing design and edit it into something new. If you have only been using your software to re-size, add lettering, rotate and change colors this class is for you. The morning will be spent creating your motif and in the afternoon we will embroider the pillow top. Instructions for completing the pillow will be included.

Supply List:

1. 1 ¼ yards fabric
2. 18" pillow form
3. 16" zipper
